Updates to your Enhanced Water Damage Package

Hello,

We are making changes to your Enhanced Water Damage Package coverage when your policy renews on 10 Aug 2024, for the property located at:

We continue to evaluate the impacts of extreme weather events and provide solutions that help you better protect your home. Your property has been reassessed and is now considered to be in a low-risk flood zone. We have ensured that you receive the maximum coverage available for Overland Water and Ground Water. Having the proper coverage in place means you get the support you need if you have a loss.

When your policy renews, your **Overland Water** coverage limit will be increased to the Sewer Backup coverage limit, as part of your Enhanced Water Damage Package. If you have **Ground Water** coverage, this limit will also change. Your premium will be adjusted to reflect the change in coverage. You do however have the option to select lower coverage limits, prior to your policy renewal date.

This letter is only a summary of the changes to your coverage. Please refer to your insurance policy which provides the full details of your coverage, including a full list of conditions and exclusions.

We understand that this is an important change to your policy. If you have any questions or would like to discuss the option of lower coverage limits, please contact your broker.

Thank you for choosing Intact Insurance to help protect what's important to you.

Sincerely,

The Intact Insurance Team
