

Intact Insurance Company

Conditionally Approved Endorsement #14 (CAE #14) Collector Vehicle Endorsement For use in Alberta, Yukon, Northwest Territories and Nunavut

Description of Use

In consideration of the premium charged, it is understood and agreed that the automobile(s) described as Collector's Vehicle(s) in the policy will only be used for exhibitions, parades, car club activities and other like functions, including occasional personal outings, such as pleasure trips. The vehicle(s) will not be used for regular transportation purposes. It is also understood and agreed that the vehicle(s) will not travel more than 10,000 km per year.

Coverage on Spare Parts

Intact Insurance Company is liable to a maximum of \$5,000 for loss or damage to the described vehicle(s)'s spare or extra parts. The coverage is subject to the highest deductible listed under any subsection of Section C.

Emergency Service Expense

Intact Insurance Company will reimburse you for towing and emergency service expense necessitated by disablement of the automobile. The amount of insurance does not exceed \$1,000 in any one occurrence and does not include the cost of parts or supplies, gasoline, oil, batteries or tires. A \$100 deductible per occurrence applies.

Towing to Residence

Where loss or damage to the insured vehicle is covered under a subsection of Section C, the insurer agrees to indemnify the insured for expenses to tow the damaged vehicle to the insured's address. The insurer's indemnity under this agreement is limited to a maximum of \$1,200.

Automobile Defined

If a newly acquired automobile, as defined under this definition, is a collector type vehicle, the coverage under Section C of the policy is subject to a limit of 100% of the agreed vehicle value.

In addition, the "14 day" notification period outlined in this definition is replaced by "30 days".

Except as otherwise provided in this endorsement, all limits, terms, conditions, provisions, definitions and exclusions of the policy shall have full force and effect.
