

COMMERCIAL GENERAL LIABILITY MAX

WELDING, CUTTING, SOLDERING WARRANTY ENDORSEMENT APPLICABLE TO FORESTRY RELATED RISKS

This Endorsement Changes the Policy. Please Read It Carefully.

Certain words and phrases in bold font have special meaning as defined below or in the form to which this Endorsement is attached.

The titles of sections or paragraphs listed below should not be considered for purposes of interpreting the intent of this Form; these titles have only been inserted for ease of reading.

This Endorsement is attached to the Commercial General Liability Max Form and is subject to all terms, conditions, limitations and exclusions of such Form.

It is warranted that and made a condition precedent to recovery under this Policy that the Insured will comply with the following warranties when any welding operations, including metal cutting and soldering operations, is performed away from any buildings owned, occupied or leased by you:

1. All flammable material shall be removed for a distance of not less than three (3) meters in each direction from any welding, cutting or soldering activities.
2. A guard or watchman will be on hand during and for two hours after all welding, cutting or soldering operations to watch for and extinguish any sparks. But this time limit shall only be for periods when the Danger Class is III or above (as per Forest Service Protection Branch Rating).
3. When all welding, cutting or soldering operations are taking place during Danger Class II or lower, a guard or watchman will be on hand for one-half hour after all operations as stated above.
4. During any welding, cutting or soldering operations, a proper fire extinguisher approved by Underwriters Laboratories of Canada will be kept in close proximity.

Failure of the Insured to comply with any or all of the above warranties will render the coverage provided under this Policy null and void.

All other terms and conditions of the Policy remain unchanged.
