## **Vacancy Permit Endorsement**

---

This endorsement changes the Policy. Please read it carefully.

Attached to and forming part of the following forms:  
Building and Contents Broad Form BF02  
Building and Contents Named Perils Form NP02

Permission is granted for the building(s), to which this Vacancy Permit is applicable, to remain vacant or unoccupied from \_\_\_\_\_ to \_\_\_\_\_. This permit will not extend beyond the expiry date shown on the declaration page of this policy.

It is a condition precedent to this permit that the building(s) shall:

- 1) Be checked a minimum of every (48) forty-eight hours when the building(s) is vacant or unoccupied;
- 2) Have the doors and windows securely closed and locked;
- 3) Be clear of all rubbish within and around the building(s) and premises.

Failure of the Insured to comply with any or all of these conditions will render this Vacancy Permit null and void. In the event these premises become occupied, this permit shall automatically lapse.

**Warning!** Please read your policy as certain perils may not apply during vacancy or unoccupancy.

Except as otherwise provided in this endorsement all terms and conditions of this policy shall remain unchanged.
